

CompactLogix University

SYSTEM INTEGRATION
WITH STUDIO 5000 AND
THE COMPACTLOGIX
PROGRAMMABLE
AUTOMATION
CONTROLLER (PAC)
FOR THE BEGINNER!

This course is a great opportunity to learn about PACs and how they're applied!

This first course starts with the fundamentals and then later courses will move into advanced instructions and practical concepts.

Attendees will be exposed to many frequently encountered topics, including:

Configuring RSLinx for Serial and Ethernet communications protocols

Developing Ladder Logic in Studio 5000 with basic and some advanced instructions

CompactLogix 101
Tuesday Sept . 11th
09:00 am - 3:00 pm (Lunch provided)

Royal Industrial Solutions
CED Ventura
1807 Palma Dr.
Ventura,CA
93003

Overview of Course

- **CompactLogix University 101**
- **New PAC terminology**
- **Basic Instruction Set**
- **Programming Techniques**
- **PAC Tag Based Address Structure**
- **Overview of Different Controller Tasks**
Continuous, Period, Event
